Subject: Autodeposition Inc. Site
Chicago, IL
Polrep No: Polrep 22
Site ID: A01
D.O. No: 5001 - 05 - 373
Response Auth.: CERCLA/Emergency Response
NPL Status: NON-NPL
Start Date: 06/29/95

CURRENT SITUATION: Removal activities continued this week. Weather: 20°F - 55°F, with some rain. See previous Polreps for historical information.

REMOVAL ACTIVITIES TO DATE: The following removal activities were undertaken for the period of 11/27/95 through 12/01/95:

Smith Environmental continued to bulk chromium contaminated debris from the east room. Dismantling of the Autodeposition line was continued during the week. This activity included sludge and liquid removal from the vat line and then removal of the vats. Liquids were pumped and filtered into poly tanks for disposal as chromic acid solution. The vats were then staged for removal from the site in both the east and west rooms. Pending bank approval, either G. Westerberg or S. Williams will take possession of the Autodep vats. Dismantling of the waste water treatment area was completed. During the week, 3 30-foot trailers of clean scrap and/or vats from the east room were shipped off-site via Stan Williams Buff Co. for recycling. 20 cubic yards (CY) of chromium contaminated debris were shipped off-site for disposal at City Environmental using Ozinga Transportation (20 CY manifest no. MI3987441). 8 subsurface soil samples collected using the Geoprobe were shipped to IEA Laboratories for total metals and TCLP-metals (where applicable) analysis. West room walls were scraped of loose chrome contaminated debris where indicated by earlier wall sampling.

NEXT STEPS:

- Continued disposal of bulk chrome debris.
- Continue cleanup of all areas.
- Complete dismantling and removal of vats in Autodeposition line.
- Commence pressure washing the walls and floors, building wide.
- Continue shipping of debris and liquids as necessary.

COST INFORMATION:

	TO DATE	CEILING
ERCS (RES)	\$311,873 (as of 12/04/95)*	\$ 450,000
TAT	\$30,039 (as of 12/04/95)**	

* from 1900-55 and includes awaits costs.

** This cost does not include multiplier.
